Your Guide to Local Resources, Clubs and Organizations
Every year we ask our readers to submit their club and organization information for inclusion in the annual Columbian Resource Guide. Our goal is to produce a helpful guide to the various organizations and nonprofits that make our community so vibrant. While not comprehensive it does include information on a variety of community organizations.

We also include information about local government, schools, and useful community information. Our intent is to provide a guide you will reference all year.

For information on being included next year contact resource-guide@columbian.com. For additional advertising opportunities for your club or organization contact communitypartnerships@columbian.com or call Teresa Davis at 360-735-4572.

Community Foundation for Southwest Washington

The Community Foundation for Southwest Washington serves to inspire a culture of giving for a vibrant and engaged community. Operating at the intersection of community and philanthropy, our team works with passionate people across our region to identify and pursue comprehensive solutions that benefit everyone in southwest Washington.

We accomplish this through a combination of programs and services that strengthen the efforts of local donors, nonprofits and communities.

As a philanthropic leader, we promote giving by connecting donors to critical causes they care about. Give More 24! is a prime example of our efforts to make charitable giving accessible to everyone. Over the last nine years, this event has empowered area nonprofits to raise over $16 million through more than 60,000 individual gifts.

We are proud of what nonprofits and donors have accomplished, and we thank our community of givers for giving our region’s incredible nonprofits a big lift! As we look ahead, we aim to continue and grow the impact of this day of giving by joining forces with GiveBIG, a statewide fundraising campaign operated by 501 Commons. This exciting, 48-hour giving event is already scheduled for May 2-3, 2023.

This move will ensure a giving day continues locally, while also providing nonprofits with a year-round fundraising platform, extensive training and resources, and a broader community of donors through the Washington Gives network. We are committed to making this transition as smooth as possible for our nonprofit and community partners, because they are at the core of our mission.

We will continue to offer strategic advice to help individuals, families, and companies create meaningful giving plans that align with their values. Nonprofits can also count on our ongoing support and partnership in addressing persistent and emerging needs.

Our Focus Grants program is a central part of this work and offers funding in three impact areas: educational attainment, basic human needs and asset building. These grants focus on achieving shared prosperity by opening opportunities—in every stage of life—for those facing the greatest barriers and challenges in our community.

Working in these ways, we will carry on our mission, and we hope you’ll be walking alongside us as we work to improve life for everyone in southwest Washington.

Clark County packs a lot into its 656 square miles: seven cities (and part of an eighth), rural landscapes, urban cityscapes, unique neighborhoods, great schools, active volunteers, strong environmental stewardship, thriving businesses, friendly people, mild climate and year round outdoor recreation opportunities.

With its pristine beauty, natural resources and mild climate, this area has always attracted people—from the native tribes of ancient times, to the era of explorers and settlements, and now the modern days of continued growth and industry.

What do you imagine of “preschool”? Is it behavioral assessments to develop customized curriculum? What about on-site, multilingual interpreters? How about guided, home-based learning projects? Oh, and what about family goal setting for legal guardians, foster parents, and even grandparents?

When we think of “preschool” we see generational change; the chain-reaction of opportunity, that begins with the care and education of our children and families furthest from opportunity.

Educational Opportunities for Children & Families (EOCF) is a leading provider of comprehensive early childhood education and family support programs throughout Southwest Washington. Through a holistic approach to early learning combined with our proven record of success, EOCF provides multi-generational supports to children and families who need it most.

Early Childhood Education is the priority work of EOCF, offering Early Head Start, Head Start, and ECEAP programs to children starting from birth to 5 years old. Since 1967, EOCF has been committed to disrupting the cycle of generational poverty by providing equitable access to childcare and early learning programs for families throughout the region.

Each year, EOCF supports thousands of children and families across 30 locations, within 40 classrooms and home-based programs throughout Clark County, Cowlitz County, and Pacific County. From prenatal support to family unit goal setting, even opportunities to continue education and career development through Parent University, EOCF’s program families receive the child-focused support they need, as well as the resources necessary to provide for their entire household’s health and well-being.

As a nonprofit, EOCF’s programs are sustained by thoughtful contributions from community donors and leaders within the region who support Early Childhood Education and the impact it has on the future of the community and the workforce. Year after year, EOCF’s Champions for Children, our generous supporters, have the chance to witness the exponential growth of our children and families furthest from opportunity. With your support, we can redefine what it means to provide our next generation in education, and in life.

Learn more about what it means to be a Champion for Children at EOCFWA.org/Donate.
Some stability among rising prices

Plenty is uncertain these days but one thing that hasn’t changed is your electric rates. We’re doing everything we can to keep your rates as low as possible while maintaining the reliable service you expect. In fact, electric rates in Clark County have remained the same for more than 11 years.

While rates haven’t changed, you may see changes in your monthly bill. That’s because utility bills change due to extreme weather. And we’ve experienced our fair share this year, with cold weather last winter and hot weather this summer.

Here are some of the many ways you can save money by using electricity more efficiently.

**Heating and cooling**
- Adjust the thermostat by one or two degrees
- Use the programmable feature on the thermostat, if there is one
- Close window coverings to keep heat inside during the cold season and outside on hot summer days

**Water heating**
- Wash only full loads in your clothes washer and dishwasher
- Use the cold water cycle to wash clothes
- Set your dishwasher to air dry
- Take shorter showers
- Install low-flow shower heads and faucet aerators to reduce use of hot water

**Electronics**
- Use smart strips to turn off computer equipment and entertainment devices when not in use
- Choose the energy-saving mode on electronics when available

**Refrigeration**
- Keep your refrigerator at 37 to 40 degrees and your freezer at 0-5 degrees
- Say goodbye to the extra fridge or freezer and unplug the less efficient unit

**House tightening**
- Repair or replace exterior door weather stripping to stop drafts
- Make sure windows are properly caulked on the outside
  - Look for cracks or where caulking has pulled away from the window frame or wood frame of exterior wall. Deficient caulking should be removed before installing new caulking.

**Lighting**
- Replace burned out light bulbs with LED bulbs
- Turn off unneeded lights

If you have trouble paying your bill, please call us right away at 360-992-3000. Assistance is available and we’re ready to help.
